Tilden Dead.

The following was received just as we went to press:

CINCINNATI, Aug. 4.—Samuel J. Tilden died at 8 o'clock this morning at his home at Greystone, N. Y., aged seventy-two years.

AMERICAN PRESS ASSOCIATION.

Don't kick.

During the twelve months ending June 30th, the breadstuff exported from this country was valued at \$125,009,379, against exports valued at \$156,451,831 for the previous year.

We seize the opportunity to remark that the people didn't take the Republican Enterprise's advice and "rotate" Frank Devine's competitor out of office—not by about 800 votes. Frank the worst beaten fellow on the "full ticket."

GENERAL DANIEL H. MAURY, of Virginia, has been appointed Minister to Colombia, vice Hon. Charles D. Jacob resigned. Maury is a Virginian, and belongs to one of the oldest families of that State. The appointment is said to be a good one.

We commend the following to Frank Devine, Billie Dawson and others of the late "full ticket":

"If you throw yourself into political strife, And get hit with a political brick, You will show your good sense by holding your jaw.

And never once making a kick."

WHEN Frank Devine was put on the "full ticket" by the Republicans we remarked in these columns that "he had been itching to run for Sheriff for years," and added, that "he wouldn't run again after the August election." We haven't changed our opinion at all. Perrine showed him under most beautifully.

One of these days the honest voters of Louisville will rise up and smash the vote-sellers and the vote-buyers. The law provides that a man who buys an office shall lose both his money and his purchase, and somewhere in the sweet by-and-by the law is going to be enforced—not this year, but some other year—Louisville Times.

WINCHESTER has it bad—the base ball fever. Even the lawyers and doctors have gone to playing. A game last week resulted in a victory for the latter. Another game between the "Fatties" and "Leans" was won by the latter, the score standing sixty-six to sixty. Several "Fatties" were carried off the field on stretchers. Old and young have the "crash" and turn out en masse whenever a game is to be played.

In speaking of affairs in Rowan County, special Prosecuting Attorney Asher G. Garth says:

"I believe that nine-tenths of the people of Rowan County are law-abiding citizens and wish to see the law enforced. They are people of ordinary intelligence, and the grand jury in this case has done its duty. There is nothing to do with it, right and, with one or two exceptions, I have seen no display of partisan spirit on the part of any member of the grand jury. They found about twenty indictments, including misdemeanors and felonies. Two or three days ago the grand jury sat again, and I think they will again meet this week and will immediately undertake the work of discovering the murderers of Martin and Bungarden. I regard Judge Cole as an able, brave and strictly impartial man, anxious to enforce the laws. He is determined that the juries will be fair, even if he has to send out of the county to get them."

OUR NEIGHBORS.

WASHINGTON.

We beat 'em. Free whisky and beer flowed like water, but burly brutes would not have saved them.

Of course there was the usual number of cases where the beer was relied on, but we had plenty without them.

We are rather of the opinion that the whisky was not so good, nor more potent, so deep that it will never be more resurrected.

The good people of this community have agreed to have a temperance meeting, and we hope that more than one hundred will be present.

Colored church members put some of their white brothers to shame by coming out in force, and we hope that the colored men stayed at home.

Let Legislators and others, who have proposed to make themselves lookouts for the jugger-nut, could not have made them any better badguines ever.

Bishop Asbury, of the Methodist Church, stood up to the work until the last minute, and did the colored people service. It is the kind of work which we can't understand.

This is just a beginning. Let whisky in the tremble as they never have done before, and let us see what the colored men will do, quickly, for the hellish traffic is on the wane.

There has been a damper put on the whisky market, and we hope that the colored men, the midgets and wees of others, that an arctic winter would be as summer in comparison.

Small-pox would have been preferable to the dead people of this present than to have had whisky voted on them.

MARYLAND.

Mrs. Annie L. Shanks, is visiting the family of Mr. J. H. Shanks, near a good house.

The election passed off quietly last Monday, everybody voted and went home in a good humor.

Col. A. F. Bowring, representing Roberts, Elkins & Belter, of Hagerstown, was the executive board Knights of Labor, who Mr. Bowring is president of the trouble at his works. He stated that he would go to trial for his father's family in Shelby County.

TERRIBLE BUTCHERY.
Two Men Brutally Murdered at a Picnic

BROOKFIELD, Mo., Aug. 4.—At a picnic given at the Mayr school house Saturday, nine miles north of this place, a terrible affray occurred in which two men lost their lives. Farmers from the surrounding country gathered at this place to spend the day in social amusements, and one John Garner took advantage of the gathering to establish a booth for the sale of beer without complying with the legal requirement of procuring a license. Several heads of families presented to him the license, but he refused to give it. He then called on Chancy Hague, constable of Grantville township, to suppress the nuisance.

Mr. Hague placed Garner under arrest and putting a party of men on the booth, started the proceedings with his party. Edward, a brother of John Garner, ran up with an ax in his hand and struck the constable a blow on the neck, severing the windpipe, and again struck him with the ax, cutting through the carotid artery and knocking him down. Tom Fogarty, who ran up to Hague's assistance, received a blow from the ax in his left side, cutting through the ribs and almost severing the body in twain. Before the horrified bystanders could regain their presence of mind, Garner, holding his ax, and as yet has not been captured. Hague and Fogarty were quiet, indistinctive citizens, and the terrible fight was witnessed while in the discharge of their duty, having no other motive than to protect the law-abiders, that when captured, the courts will not be burdened with his case.

MURDER AND SUICIDE.

A Young Man Shoots His Sweetheart, Her Father and Himself.

OMAHA, Neb., Aug. 4.—Early in the spring John Lee, Jr., 18, son of a farm hand by John Ruthke, of Mayville, thirteen miles from here. Ide soon formed an attachment for Miss Mary, the seventeen-year-old daughter of the farmer. His love seemed to be reciprocated by the young girl, and their courtship continued until Lee asked for the young lady's hand and was refused it by her father. The enraged lover then asked the young lady to slope, but she refused to do so.

Ide pressed his claim upon her, but with the increase of his ardor she grew obstinate and finally told him her affection was not such that she would forsake her home to become his wife, and that unless he desisted in his pursuit she would refuse to marry him. This decision made Ide turn to her for revenge. When the young lady and her father went for the cows, Ide hid along the way they were to traverse and shot dead both the daughter and her father. He then turned his gun on the tools of his dying sweetheart, and placing a revolver at her head, pulled the trigger. Within five minutes after the first shot was fired all three bodies were lifeless.

David Davis Will.

BLOOMFIELD, Ill., Aug. 4.—The will of the late David Davis was offered for probate today. It provides for the verification of the signature. It was made on March 9, 1883, just prior to Mr. Davis' second marriage. It is very voluminous. The estate is valued at about \$1,000,000, chiefly in lands in Illinois. The provisions of his second wife is dependent of his wife's second husband, but does not provide for Ide to share it. He provides comfortable support for his poor relations. After setting out various large tracts of land to his children and grandchildren, he bequeathes all the rest to his son and daughter in common. He earnestly enjoins on his heirs not to sell or encumber the estate.

The Times is Social Science.

Some time since the following query from Toronto was respectfully submitted: "Does our imperial progress keep pace with that of other nations?" The query was given to the committee on social science for investigation, and Professor Hackensack Johnson, chairman, being unable to answer it, referred the committee back to the professor of history. The committee had kept their eyes open and their tongues going. They had discovered that where one work on history or science was sold 10,000 fly sheets of some new love story were sold upon the doorsteps of as many houses and eagerly read by the mother and her daughter.

They had found that for every one book of solid reading carried home by an adult 20,000 boys purchased little novels relating to Indian lays or "old girls" and devotes. Every boy's pocketbook in America there were five novels.

Where one woman read her Bible 100 read a story paper.

The committee were therefore of the opinion that "she does," and they asked to be discharged from further consideration of the subject.

GENERAL FOREIGN NEWS.

A SAD STORY AND CRUEL FATE OF AN ITALIAN PRIMA DONNA.

The Suicide of Her Brother Causes the Death of Her Mother and Drives Her Insane—Mr. Gladstone Watching the New Cabinet—Ministry Visits the Queen.

LONDON, Aug. 4.—The tragic story of the death of the son and the sad and cruel fate of the favorite Italian prima donna, Zaira Gattini. A short time ago Zaira, her mother and two brothers went to Barcelona, where the prima donna was to fill an engagement. While there the mother became ill. Physicians were called but the patient steadily grew worse. Zaira attended at the bedside of her mother during the day, and regularly appeared at the theater each night, leaving her brothers to watch over the sick one. One night while Zaira was absent at the theater, her brothers informed her brother that their mother was in a hospital condition and could lie but a few hours at the most. The older of the brothers, crazed with grief at this announcement, seized a pistol and shot himself dead in the presence of his mother, who expired almost immediately afterward.

The younger brother hastened to the theater to inform his sister. He was admitted, and met her just as she was leaving the stage, burdened with flowers and her ears ringing with the applause of the audience. In a few words he told her what had happened, when with a shriek of despair she fainted. She was carried to a window and attempted to throw herself to the ground. She was restrained by friends, who, attracted by her cries, rushed toward her, and immediately conveyed her to her apartment. When her pulse had again gratified she said it was the shock that had deprived her of life. The physicians had been summoned, and she is now confined in an asylum.

Cripping the Cabinet.

LONDON, Aug. 4.—Conservatives as well as Liberals are freely criticizing the arrangement from the cabinet of the lord privy seal with which a number of violent and unprincipled persons are also felt the Earl Collopy should have given his assent to such an arrangement. The Conservatives openly express their regret that Mr. Henry Chaplin was not invited to the cabinet, and the remaining members are unanimous among themselves all inclining to the belief that under the circumstances the arrangement of the ministry has been the very best that could have been made.

Preparing for the New Ministry.

LONDON, Aug. 4.—The ministers, their secretaries and the minor officials of the various departments are busily engaged in making ready for the advent of the new ministry, and the army of clerks is kept busy night and day clearing up routine business and disposing of the sprawling mass of correspondence which the approaching change of government has provided.

Gladstone Watching the Cabinet.

LONDON, Aug. 4.—Mr. Gladstone, who is placed in a difficult position, having, with the cuteness of an old parliamentary hand, to remain here awhile longer to see which way the political cat will jump, and will probably take up his residence at the manor of his Frederick Cavendish, 21 Carlton house terrace, after his return from his annual cruise.

On Their Way to Osborne.

LONDON, Aug. 4.—At 4:45 this morning snow began falling here, the fall lasting about five minutes. The weather is extremely cold for this season of the year.

India's Cotton Crop.

LONDON, Aug. 4.—Despatches from Calcutta state that the cotton crop of Western India is expected to be the largest ever gathered.

KANSAS DRUGGISTS.

The Temperance People of Wichita Encouraging the License Laws.

WICHITA, Kan., Aug. 4.—The largest and most important druggists here were called upon to answer a violation of the existing liquor law, the charge against them being selling without a druggist's permit. These are all men of wealth and prominence, Aldrich, of Aldrich & Brown, being mayor of the city, and his clerk, Harry Lewis, the son of a prominent citizen. The trial was adjourned, and the parties, together with the excitement of the question involved, will make the trial on Wednesday one of the deepest interest. The punishment is \$100 fine and thirty days in the county jail for the first offense.

The gentlemen arrested claim they are entirely innocent, having never sold whiskey thus as required by law, and that their arrest is the result of a personal grudge. John Dow, one of the wealthy men of the city, was fined \$500, and is now serving out his term of imprisonment; but so great is the indignation of his friends that he may yet be released. It is done, however, to the effect that people will do everything in their power to have a strict enforcement of the law, and the conflict between the two opposing interests judging from the feeling of the people, may be the most exciting character.

Kiesling Disturbances.

BIRMINGHAM, Ala., Aug. 4.—At the state election Republican negroes of the court house party were beaten and forced to leave the house by leading Democrats headed by Deputy Sheriff David Brown, attempted to stop them, when they tried to invite a riot Brown shot the ring-leader, Alex Peck. Ex-Congressman Howitt, who was in the crowd, was hit in the eye. The police drew pistols and quelled the disturbance without further bloodshed.

Wind Storm in Michigan.

KALAMAZOO, Mich., Aug. 4.—A great wind storm at 10 p. m. yesterday along the line between Kalamazoo and Barry counties has just been received here. The country was made a shambles and twisted trees lay broken over roads and wind mills and houses. At Hickory Corners the church and temple were blown down and totally demolished, and many other buildings were damaged. Great rain fell accompanied the storm.

POINTED PARAGRAPHS.

Rev. Sam Jones appeared at Loveland camp meeting and presented an impressive sermon, at the conclusion of which he said, "I will go to run this meeting in the green line, and if at any time you don't like it just pack up your duds and git."

The contracting builders of Cincinnati have resolved to stop work until journeymen, who are skilled workmen, and are employed in non-union had carriers and laborers. Building is therefore at a standstill in the city. The Bricklayers' union, at a meeting, unanimously resolved to adhere to the stand taken at a former meeting, which was the stand made by the union where the non-union had carriers were exclusively employed.

Foreign.

More British government appointments are announced. Holland is enjoying an influx of American tourists, including Cinematographers. One hundred and seven of the Belgian rioters were sentenced to various terms of imprisonment. Villard, in southern France, has been destroyed by fire. Lord Lansdale has been fined for assault.

The stock market opened firm, and on a buying of 1,000 shares of the Erie, the market closed, during the first forty minutes. Toward 11 o'clock the bears made a raid on the leading stocks, and sold them quite freely up to 12 o'clock, when the market closed, and had entirely disappeared. The market at the writing is dull and featureless.
